THEY WILL NOT FIGHT.

Spain's Boasted Flying Squadron at Last Located.

IT HAS ARRIVED AT CADIZ.

Why It Has Returned Is Something of a Puzzle.

THE OREGON NOW IN NO DANGER.

American Fleet May Be Sent After the Cowards.

CUBA TO BE LOOKED AFTER FIRST.

It Is Considered Barely Possible That the Dons Would Send Their Fleet Through the Suez Canal to the Philippines, Exposing Their Own Coast.

Washington, May 11.—It is hard to tell whether the naval officials were relieved or disappointed by the news that came to both the navy and the state departments to the effect that the Spanish flying squadron had arrived at Cadiz, Spain.

The safety of the Oregon from attack is now completely assured and the way is clear for military operations in Cuba without running the risk of having the occupying army's line of communication cut off.

On the other hand, it is believed that no enduring peace can be secured until the Spanish navy has been destroyed, and it now appears that to do this our sailors must make up their minds to go after the Spaniards—a task very much more difficult than that of meeting them near our own shores.

It was suggested by some of the members of the war board that there was just a possibility that the Spanish squadron might make a quick passage into the Pacific through the Suez canal and attack Dewey at Manila.

It is said that, contrary to the common understanding, the Suez canal is open to the warships of belligerent powers, so that if the Spanish choose to take this course they would have a long start of any pursuing fleet from our side of the Atlantic.

It is scarcely believed, however, that the Spanish are willing to take the great risk of exposing to our attack their own home ports by the withdrawal of so considerable a proportion of their naval strength as would be required to overmatch Dewey.

SAMPSON NOT HEARD FROM. Nothing was heard from Sampson, but there is a confident expectation that interesting news will be coming from his squadron within the next 24 hours. Whether this means an attack on Porto Rico or not can not be learned.

One effect of the retreat of the Spanish fleet has been to hasten even more the preparations already under full headway for the dispatching of military expeditions to Cuba. It also has caused a complete change in the concentration plans. Time is now believed to be the great factor. There is no longer opportunity to indulge in extensive drilling and practice maneuvering.

The regular army troops do not need these, and are to be thrown at once into the fray. Many of the regiments of the national guard which are entering the volunteer service are felt to be sufficiently trained, from a military point of view, to follow the regulars immediately, and the department indicated its purpose of dispatching these volunteer troops directly to the gulf coast for shipment, instead of sending them to Chickamauga.

This disposition was shown by the changes in the new orders issued to the troops, although there may be yet a return to the original program of concentration if the plans show signs of weakness as they develop.

TRANSPORT SHIPS CHARTERED. The quartermaster general has already gotten under charter 27 merchant steamers for the transport of troops, and, roughly speaking, these should carry about 20,000 men. Others are being procured as rapidly as possible.

The plan of the war department is to have these vessels assemble at the different gulf ports—Tampa, Mobile, New Orleans and Galveston—to take on troops which will be sent there.

The navy department is expected to furnish convoys for these transports, which would be absolutely helpless against Spanish attack. At this point there are signs of friction.

First, the transports will be obliged

to await Admiral Sampson's return in order to secure proper convoy; and, secondly, the navy objects very decidedly to undertaking the task of conveying a number of transports.

It insists that to assure the safety of the convoy of the troops all of the transports should be gathered in one fleet to start from Tampa, and the navy is likely to prevail in this.

Now that Major General Sewell has been assigned to command the concentration camp at Falls Church, preparations are being rushed to put the grounds there into shape for the reception of the volunteers.

This Means Action. Chickamauga National Park, Ga., May 11.—Major General Brooke, commanding the United States regular provisional army corps at Chickamauga park, received orders from the war department directing him to send all the cavalry and infantry troops now in camp at Chickamauga park, about 6,000 in all, to Tampa, Fla., without delay. The order is accompanied with instructions to provide the men with a full supply of ammunition for 60 days.

Just Like Cuban Spaniards. Hongkong, May 11.—The Catholic priests and sisters of charity at Cavite thanked Commodore Dewey for his kind treatment of wounded Dons, and then informed him of a narrow passage in the bay which was not mined, and urged him to sail through it. Investigation revealed the fact that the channel was heavily mined.

Will Go to New Orleans. Indianapolis, May 11.—Secretary Alger telegraphed Governor Mount saying that the Indiana volunteers who had first been asked to go to Chickamauga, had been ordered to New Orleans instead. The men of the Second and third regiments and Battery A Indiana light artillery will start soon.

Heavy Cannonading. Beaufort, N. C., May 11.—Captain Allen of the schooner Alert and many others of the ocean fleet of fishermen of this place report hearing heavy cannonading off Cape Lookout, N. C., at 10 a. m., counting 47 distinct shots.

Two American Warships. Port-au-Prince, Haiti, May 11.—The minister of the interior has received a dispatch from Mole, St. Nicholas, saying two American warships are there, and that a Spanish vessel is watching outside.

The French Are Ravaging. Hongkong, May 11.—Tonkin papers, under French direction, denounce the Americans as pirates and the Anglo-Saxon race as encroaching upon the Latin race.

Will Make a Change. Hongkong, May 11.—The British gunboat Swift will relieve the British gunboat Linnet at Manila. She will leave Hongkong immediately for the Philippines.

The Irony of Fate. Washington, May 11.—General Fitzhugh Lee is to be the first American military governor of Cuba.

They Call It Insanity. Vienna, May 11.—Princess Louise of Saxe-Coburg and Gotha was conveyed to a private asylum. The princess had clandestinely passed the last few weeks with Lieutenant Von Mattachick-Keglinch, her lover, at his castle near Agram, Croatia. In the meantime her debts grew to millions of florins, and bills bearing the alleged forged signature of the Archduchess Stephanie came into circulation.

In Favor of Annexation. Washington, May 11.—The house committee on foreign affairs met to consider the Hawaiian annexation resolution, but finally deferred the vote until next Thursday. The delay was upon the request of the minority. The committee stands 11 to 4 in favor of annexation.

Farmer Found Dead in the Mountains. Prestonburg, Ky., May 11.—K. C. Sword, a wealthy and prominent farmer of this county, missing from home recently, was found dead in the mountains. Heart disease was the probable cause. He was 60 years old and leaves a family.

Report Not Confirmed. Madrid, May 11.—There is no confirmation of the report that the Spanish fleet from the Cape Verde islands has returned to Cadiz, but it is generally regarded as the most likely movement to be made, and is an indication that Spain has decided to let her West Indian possessions go.

Powers Preparing to Intervene. Hongkong, May 11.—It is reported that naval movements are progressing which suggest an intention on the part of the powers to intervene between the United States and Spain.

Rather Startling Rumor. Madrid, May 11.—It is claimed the Spanish steamer Montserrat has run the blockade and entered Havana harbor. The rumor is not confirmed and is not credited.

THEY WANT A POLICY.

Spaniards Would Like to Know Reason For War.

APPEAR TO BE IN THE DARK.

But Really They Are Not Participating in the Conflict.

THEY'RE RUNNING AWAY FROM IT

Cabinet Changes Now Seem to Be Inevitable, and Carlists, Republicans and Socialists Are Taking Advantage of the Crisis.

Madrid, May 11.—Senor Moret's practical invitation to the chamber to declare what policy the country desired to adopt has not met with general approval, it being regarded, as Senor Silveira said Saturday, as a confession of impotence on the government's part and a conversion of the cabinet into a mere executive committee.

Cabinet changes have become inevitable, and the Carlists, Republicans and Socialists are preparing to take advantage of an opportunity presenting itself to make mischief. Happily, the activity of this hybrid group, which includes several nondescript and unscrupulous politicians and some Romerists, presents no immediate danger.

Inside the chamber they only number about 30 deputies, and outside they have no efficient organization, except the Carlists, who do not desire at present any insurrectionary movement, but only want to discredit the monarchy, hoping that an anarchic republic would pave the way to a legitimate restoration in favor of Don Carlos.

Meanwhile they are careful to avoid producing an impression of utilizing the national calamities for their own ends. Spain has not forgotten the terrible sufferings of the last Carlist war, and does not desire to begin another struggle of the same kind.

CARLOS TO BE KING. The Spanish Pretender Is Already Forming His Cabinet.

New York, May 11.—Senor de la Costina, American representative of Don Carlos, left New York to join his leader in Europe. Before going Senor Costina said that his departure was due to a summons from Don Carlos, and that all the other American Carlists had already left, or were about to leave, to assist Don Carlos in his next effort to regain his throne.

Senor Costina said that, judging from the events of the past few days, Don Carlos would probably be established before he (Senor Costina) arrived in Europe, but that in any event the presence of the American Carlists was desired at this moment.

Don Carlos is already forming his ministry, and, although his list is not yet completed, at least three of the ministers have been decided on. The Marquis of Cerralba is to be president of the council; General Weyler, commander-in-chief of the army, and Don Juan Vazquez de Mella, who was recently expelled from the cortes for his freely expressed Carlistic sentiments, will occupy a high position, probably that of secretary of state.

A Stormy Session. Madrid, May 11.—A stormy session was held in the chamber of deputies to debate war funds. Salmeron (Republican) declared his party was ready to form a government, and a great uproar followed. The president threatened to expel Salmeron if he continued to attack the throne. Sagasta made a passionate appeal to the patriotism of the members and begged them to vote the war funds. The appeal was answered with a general affirmative cry.

Want "A Proper Government." Madrid, May 11.—In the chamber of deputies the Catalan deputies strongly protested against the proclamation of martial law in Barcelona, as there have been no disorders there. They said, however, they would postpone their intended interpellation of the minister of war "until a proper government had been formed."

The Struggle Is Hopeless. Madrid, May 11.—The question is generally asked, "What possible use has Spain for continuing a hopeless struggle, as it is considered next to impossible that she has any alternative plan, or that the retreat of the squadron hides some strategic design?" The question is not answered.

Washington, May 11.—The United States treasury is paying out gold over the counter in lieu of currency. This will be continued indefinitely. The available cash balance on hand, including the \$100,000,000 gold reserve, is \$213,313,585.

THE PRESIDENT

Will Not Appoint a Military Governor of the Philippines.

Washington, May 11.—The cabinet meeting was shorter than usual and the business transacted was not of an important character, although the government has a number of swift vessels on the Atlantic doing scout duty no reports up to noon had been received as to the whereabouts of the Spanish fleet and on this point the officials are quite as much in the dark as are outsiders.

Published reports that the president is considering the appointment of a military governor of the Philippines when our forces shall have taken possession is denied by members of the cabinet. The question of a government of the islands is regarded a serious one and no action will be taken regarding it until after the matter has received much consideration.

Smith's Order to Postmasters.

Washington, May 11.—Postmaster General Emory Smith issued the following order: "All officers and employees of the postoffice department are hereby forbidden to furnish information pertaining to or in any way bearing upon the conduct of the war to any person or persons not connected with the department, or to any newspaper or other publication, unless authorized to do so by the head of the department." This order was made for the purpose of preventing postmasters from giving information in regard to suspicious letters passing through their offices.

Slump in Wheat.

Chicago, May 11.—A tremendous temporary slump in the price of wheat occurred. The fall amounted to 19 cents a bushel. From \$1.25 the quotations for the July chief option fell to \$1.06. However, there was a big rebound and the closing price was \$1.14. It was a market seldom equalled for wildness even in war times. When scarcity of offerings had pushed the July figures up to \$1.25, there appeared to come an impulse on the part of holders to take profits.

Suicide of Young Havemeyer.

New York, May 11.—Charles F. Havemeyer, son of the late Theodore Havemeyer, committed suicide at his home in Roslyn, L. I. He shot himself through the brain. Mr. Havemeyer was 35 years of age. He leaves a wife and two children. No motive for the suicidal act is known.

Trouble For Employers.

New York, May 11.—It was announced at the board of walking delegates of the building trades that preparations are under way for a vigorous attack on the Employing Stonemasons' associations. The employers have locked out 2,000 stonemasons in the big stone yards in the city to head off the strike for an 8-hour work day.

Day Keeps Babcock.

Washington, May 11.—E. J. Babcock of Ohio, who was private secretary to Secretary Sherman while he was in the senate, and also while he was at the head of the state department has been requested by Secretary Day to continue to serve him in the same capacity, and he has accepted.

Tennessee Monuments.

Chattanooga, May 11.—The several Tennessee monuments in Chickamauga park will be dedicated with appropriate ceremonies next Thursday. The speakers will be ex-Governor J. D. Porter, General H. V. Boynton, General G. P. Thurston and others.

Fatal Accident.

Thacker, W. Va., May 11.—Leander Small, Joseph Morris and William Hardy were killed and six injured by a cable breaking and the car dashing down an incline.

Customs House Burned.

Shanghai, May 11.—There were serious riots at Shasi, in the province of Hupei. The customs house and several foreign buildings were burned.

Germany and Spain.

Cadiz, Spain, May 11.—The crew of a German cruiser here ostentatiously fraternized in the streets with the crew of a Spanish battleship.

Massacres By Insurgents.

London, May 11.—Massacres are said to have occurred outside of Manila, the insurgents killing Spanish women and children.

Loyal Americans Knew This.

Washington, May 11.—The archbishop of the Catholic church in America has issued an address saying that all loyal Americans must unite against a foreign enemy and common foe.

Treasury Statement.

Washington, May 11.—The statement of the condition of the treasury shows: Available cash balance, \$213,313,585; gold reserve, \$180,328,491.

Date of Inauguration Changed.

Washington, May 11.—The senate adopted a joint resolution changing inauguration day from March 4 to May 4.

THE PRICE BOUNDS UP.

Window Glass Takes a Jump of Ten Per Cent.

DEMAND IS RATHER LARGE.

There Is Practically No Stock on Hand, and No Rush Orders Are Being Taken at Present Except at Fancy Prices.

Anderson, Ind., May 11.—Within the last week window glass prices have advanced over 10 per cent over the discounts withdrawn the first of the month. The demand for window glass is unexpectedly large, owing, evidently to a wonderful revival in building. Orders indicate it is general all over the nation.

There are practically no stocks on hand, and no rush orders are being taken, except at gilt-edge prices. It now looks like there would be hardly any stock on hand July 1, when the summer shut-down will stop manufacture for at least two months. Jobbers are making a strong pull with the trust, and are realizing handsomely on the stocks they have on hand. They are still rounding out stocks, expecting prices to go still higher.

Plate glass prices have also been advanced during the week. The former discounts were 85 and 20; the new list 80 and 10 and 80 and 20, according to sizes. The demand is very active, and it is expected that prices will go up from now until the end of the season.

The flint and green bottle trade shows improvement. Prices on small orders have been increased, and many who have held back their orders have to put up an extra 10 per cent. Jobbers and shrewd speculators who foresaw this a month ago are realizing well.

Demand for bar goods and punch tumblers are rather increased. In lamp factories are busy. Lamp chimneys are dull, production being curtailed. Blown ware is in fair demand.

Fruit jar trade is opening up well, but it is thought there is a tendency to overdo things in this line. Prices are very low.

There is a freer movement in tableware. Cost of raw material has advanced a little, and indications are that prices of the finished ware will be advanced slightly. Factories are operating pretty full at present. The outlook is more favorable.

A Big Sword.

Tipton, Ind., May 11.—J. A. Dunham, one of Tipton county's substantial farmers, exhibited amid much enthusiasm at a meeting held in Kempton for the purpose of organizing a company of volunteers a sword that has done service in two wars. It was worn by his grandfather, who fought with Scott in the Mexican campaign, and later by his father, who was an officer in the Thirty-fourth Indiana regiment in the rebellion. The weapon is about twice the weight of an officer's sword used and the blade is 38 inches in length. Mr. Dunham is over 6 feet tall and weighs more than 200 pounds, and his ancestors were of like stature, hence the long and heavy blade. The sight of the relic so enthused the assembly that it unanimously elected its owner captain.

Surplus of Lunatics.

Richmond, Ind., May 11.—The board of trustees of the Eastern Insane hospital, this city, is holding its regular meeting. The members are being besieged with letters from friends and relatives of unfortunates who are confined in county jails awaiting admission to the hospital, but who are crowded out for lack of room. There is absolutely nothing that can be done to relieve the situation until new buildings are constructed.

Big Damage Suits Filed.

Richmond, Ind., May 11.—Damage suits aggregating \$45,000 were filed in the Wayne county circuit court, one against the city, Oliver Pickett, \$5,000; one against the Big Four, \$10,000, for the killing of brakeman William Baldwin last March at New Trenton, Ind.; one, J. E. Fuson versus Pennsylvania company, \$10,000, injuries; one, J. E. Stanton versus Pennsylvania, \$10,000.

Fell In Love.

Jeffersonville, Ind., May 11.—Von Morris of Council Bluffs, Ia., arrived to marry Miss Maggie Steiner. Morris had never seen his bride until he came here. He heard of her through a mutual acquaintance, exchanged photographs, fell in love, proposed marriage and was accepted. He is wealthy. The marriage was solemnized.

Colored Man Shot.

Bedford, Ind., May 11.—John Burgess, while intoxicated, went to the home of Spurgeon McGinniss, a well-to-do colored man, and emptied a double-barreled shotgun into his body, killing him.

THE NEWS.

Spain will send 8,000 soldiers and two battalions of marines to the rescue of Manila.

The President has decided that the Cape Verde Squadron which reached Cadiz must be destroyed wherever it goes.

From Hongkong it is reported that naval movements are progressing which suggest an intention on the part of the Powers to intervene.

From now on operations will be aggressive. Sampson is ordered to reduce the fortifications at San Juan in Puerto Rico, and an army of occupation will be got ready at once. To-morrow the first installment of troops will proceed to Cuba.

The cutting of the South American cable has great significance. The belief is expressed that the mass of the Spanish fleet is sailing around the Horn to Manila or to bombard the Pacific coast. Spain promised a surprise, and this may be it. It is believed by many strategists that this is Spain's prize card.

THE BULLETIN has arrangements by which the most important bulletins are sent it from the office of the Cincinnati Post, over a loop that leads from their own instruments—a service, by the way, no other Maysville paper can secure.

By this service we have been able to give the public the news far in advance of even some city journals.

Of all the telegrams we have received none have been misleading up to date with the exception of the one we printed Monday reporting that a naval battle had taken place on the Atlantic resulting in the defeat of the Americans.

We are happy to state that there was no truth in it whatever, though in a certain quarter there seems to be great disappointment that such an engagement did not take place with the result stated.

In times like these it is not surprising that false reports creep into the daily press, however, much we try to guard against it.

A message reaches us as the forms are about to close; there is no time to inquire into its authenticity; if true, it is of the utmost importance and we want to lay it before our readers, therefore we are compelled to accept it at its face value.

The telegram referred to was published in the Cincinnati Post the same evening, word for word as it appeared in the BULLETIN.

We have no desire to palm off "fake" telegrams on the public, and because the one referred to proved a canard is no reason why others may not be accepted as the truth.

The Louisville Dispatch tells the tale truthfully when it says the gold standard newspapers are trying to make the farmers believe that they reap the bulk of the profit on wheat, when as a matter of fact it had left the hands of the farmer before there was any material advance. Those who have profited most by the advance in wheat are the speculators in Chicago and other business centers who were able to get from the banks sufficient money to corner the market.

REV. SAM JONES not only abuses the privileges of the pulpit, but evinces an ignorance of newspaper rules, when he characterizes people whose communications appear in print over pen-names as "cowardly little dogs," says the Nashville Banner. Such communications are not anonymous in the sense that the names of the authors are not obtainable.

Every well-regulated newspaper requires that the names of writers accompany their communications for the editor's information, and when there is good and sufficient reason for it these names can be given at the editor's discretion. If it were the rule that everyone who

has a suggestion to offer or thoughtful views to present upon public questions should subscribe his own name in print, the press would lose many valuable contributions. It is easy to understand how a good and observant citizen may render a public service by sending a communication to a newspaper, who would not render this service if he were required to place himself in the attitude of seeking notoriety by exploiting his name.

RIVER DRIFT.

A Batch of Interesting Items Gleaned From Our Exchanges Pertaining to Travel On the Ohio.

French's "New Sensation" passed up this morning.

Nearly 2,000,000 bushels of coal left Pittsburg Monday.

The Ohio and tributaries are again falling. The Pittsburg swell is now passing Cincinnati.

The Pittsburg and Cincinnati Packet Company has decided to name the new Pittsburg wharfbat "The Dewey."

Captain Dave Gamble says the W. J. Cummins will not enter the Kanawha river or any other trade, but while under his control will remain in the Cincinnati, Wheeling and Pittsburg trade.

The W. W. O'Neal Coal Company has taken a novel way to show its appreciation of the brilliant victory of Admiral Dewey. The new pump boat which was taken off the Elizabeth ways yesterday has been named after the hero of Manila, and when she was launched the shouts of the people were deafening.

There is considerable coal loaded at Pittsburg and it is possible that all of it got away before this. The operators again suffer from the lack of boats to take the coal out, as the majority of them are below Cincinnati waiting for the lower river boats to arrive in order to help them make up their tows. The boats that are in the harbor, however, will be sent out, and should the rise continue the boats coming up will be sent back as soon as they arrive. Some boats will be sent down with tows which will be given to towboats on the way up.

The Virginia on her down trip Monday night, had from Pittsburg to this city a party of well-known people who had with them their tally-ho coach, horses and driver and all the necessary appurtenances for a couple of weeks' outing. The party consisted on Henry Wick and wife, Captain C. H. Booth and wife and Harry Bonner and wife. The coachman is George Aldrich, who is celebrated in West Virginia and Eastern Kentucky as a practical guide and stage coach driver. The party intend going from here through the Blue Grass region of Kentucky to Louisville and returning may come by way of Covington and return home by river to Wheeling and Pittsburg.

James Jones & Sons have received the contract from the Government to supply coal to the Government at all of the proposed dams on the Ohio river. In the contract is a clause binding the firm to hold itself in readiness to supply coal to the Government at any time and at any place desired. Upon this condition the contract was accepted. This contract, while it is not a large one, is good, as it will last for several years, or until all of the dams are finished. The clause in the contract led a writer to state that the company would be called on to supply coal to the war vessels, and that it had placed its mines at the disposal of the Government. This is false, as the Government would not ask for bids to supply several million bushels of coal at Tampa if it had already given the contract to Jones & Sons. There is enough coal between Louisville and New Orleans to supply all the war vessels owned by the United States for a year if necessary.

Hanna Will Steal a March.

WASHINGTON, D. C., May 10.—Senator Mark Hanna is planning a coup to confound his enemies. The finding of the Ohio Legislative bribery committee against him is still in the hands of the Vice President.

There is said to be an understanding between Hobart and Hanna. When the enemies of the latter shall be away Hanna will call for the report. It will then be submitted and summarily dealt with. It will never be heard from again after that.

Boiled Cucumber.

Peel and cut in half lengthwise, good sized cucumbers, removing the centers. Boil for about twenty minutes. Drain water off. Dust well with salt and pepper, pour a little melted butter over, and serve hot as a vegetable. If cooked properly they should melt in the mouth, like cream, and leave a bouquet like good wine.

Sunday School Convention at Shannon.

The Union Sunday School Convention, previously noticed, was held last Sunday evening at Shannon. The evening being fine, a large crowd turned out—there being nearly a thousand present. Maysville, Washington, Mayslick, Sardis, Murphysville and Hebron were well represented. An interesting program was rendered.

The speakers made splendid short, pointed talks, and Miss Cecil Arthur deserves special mention for the graceful way in which she delivered the welcome address. Miss Anna Evans, who had charge of the choir, also deserves special mention, together with Mrs. Carrie Grigsby, Misses Cora and Allie Bratton, and Mr. Sam Vaughn; altogether it was an occasion long to be remembered by old and young.

Miss Fannie Reed came home from school very sick with fever.
Remember the prayer meeting at Mill Creek every Wednesday night.
Mr. J. W. Bateman sold a nice lot of hogs to Dr. Cook for \$3.50 a hundred.

EAST LINSTONE.

Spain has no honor to defend.
Farmers are busy planting their corn.
Julius Degman, of Springdale, came down on his wheel the first of the week to visit relatives at "Mt. Welcome."
Charles Smith, one of our industrious young farmers, had a valuable horse to die a few nights ago, supposed to have had colic.
Mr. Joe Sherman, the gardener, has recovered from his slight injury of the street car collision and has had his wagon repaired which was completely demolished as a result of the accident.
The latest curiosity in the neighborhood is a three-legged pig owned by Miss Katie Smith, the fourth leg being about one inch long and is quite useful to the little chubby fellow in holding his own with his three mates.

A CARD on the outside of office doors says: "Gone to lunch. Be back in ten minutes." And, the man will be there on time. That is, for some days, weeks or even months, he will. Then he will be at home occasionally for a day. He'll tell you he had a headache—a turn of cholera morbus, or maybe he'll say he had a lump in his stomach and felt too miserable to move. The lump was probably two or three ten-minute lunches condensed.

The man who "bolts" his lunches will find Dr. Pierce's Pleasant Pellets the best friend he ever met.
There is no case of biliousness, constipation, indigestion, "heart-burn," or any of the rest of the night-mare breeding brood, that these little "pellets" will not cure. They cure permanently. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

LOUISVILLE TOBACCO MARKET.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 1714 hhd., with receipts for the same period 826 hhd. Sales on our market since January 1st, amount to 54,733 hhd. Sales of the crop of 1897 on our market to this date amount to 47,151 hhd.
Our market for burley tobacco this week has been somewhat irregular and a little easier for the common grades—especially when out of condition—the thin color kinds are also a bid or two off. Good clean reds and the fine grades have been active and strong and we see no reason why they should not so continue at least until the crop is planted. Should a very large crop be set it may have a tendency to depress prices. Old Burley.—Prices for old burley are about as they were last week. Such grades as are bringing from 8 to 13c. being in the main satisfactory to sellers, while prices for the good to fine sorts are disappointing.
The following quotations fairly represent our market for burley tobacco (1897) crop:

SIR CHARLES DILKE

Says the United States Can Hold the Philippine Islands.

London May 11.—Sir Charles Dilke, when asked whether any question of international law or practice affected the United States' right to retain the Philippines, said: "None whatever. The United States will hold the Philippines by right of conquest. No power or powers will have the slightest title to interfere."

"But may not some power, Germany or France, for instance, bring pressure to bear on the United States to surrender them?"

"That idea of continental pressure I regard as all moonshine. No power would attempt pressure unless we were in the same boat with them, which we never will be. Without English naval support no power will venture upon any action in the matter."
